I CAN INVENT MINDSET

INTELLECTUAL PROPERTY: "The protection of intellectual property is fundamental if technology is not protected, then it's almost impossible to further develop it." -Chenya, PhD candidate at Pennsylvania State University

DESIGN THINKING: "To be able to contribute positively to our society, science and engineering is really the best career path." -Margaret Wu, Professor at Syracuse University

CONFIDENCE: "If you've got a good idea, follow it even when others say it's not." -Thomas Edison, Inventor of the Light Bulb and Phonograph

STEM: "Make the impossible possible by never giving up." -Charles Kesteven, Professor of San Jose State University

COLLABORATION: "Look for what's missing." -Leland Brown, Professor at San Francisco State University

PERSISTENCE: "Become passionate about what you do and sell, sell, sell it." -Suzanne Stout, Co-founder of Girl Scouts

ENTREPRENEURSHIP: "When you have the same idea of purpose, you can be driven to take risks because sometimes change is needed." -Laurie Johnson, Professor at the State University of New York

CREATIVE PROBLEM SOLVING: "Know the problem you are trying to solve and approach it from several different directions." -Robert Huggins, Professor at North Carolina State University
